# INTRODUCTION

Wakana & Yume

**What kind of image  
do you have in Okayama?**

# Okayama is said to be a new sacred site for comedians

**TRAFFIC**

Otoha & Mei & Kotone & Ryota

problem

Not a few tourist destinations, but...

A rural landscape featuring a dirt path that leads through lush green fields. On the left, there is a rice paddy with young plants in rows. On the right, there are tall, green stalks, possibly corn. In the background, there are rolling green hills and mountains under a cloudy, overcast sky. A utility pole with power lines is visible on the right side of the path. A large, low-profile building is partially visible in the distance on the right.

**Traffic is not convenient**

# **MANHOLES**

**Cosmo & Haruki & Taichi & Koki**

## Manholes nationwi

**Koki**

1. There are about 8.5 million manholes in Japan.
2. They are one piece every 30 meters.
3. A male worker (MAN) entered the hole .

# This is a manhole in the Bikan district

These are manholes in Osaka and Fukuoka.

They compare with Bikan district's manholes.

※実際に行って、撮ってきました！

**too simple!!**

# I'm heading to Bikan district for an interview!

Please tell us  
about the current  
situation of the  
Bikan Historical  
Quarter!

# First store

## 「Kurashiki coffee shop」

The town is big, crowded,  
but events don't get much  
attention.

# Second store

「Kurashiki tourism information center」

Many people, tourists and locals alike, miss out on the history and culture of this town despite its rich heritage.
